Eduardo Fernández Ortiz

Project Director | Civil Infrastructure

Washington, DC | efernandezortiz@ciccp.es
https://www.linkedin.com/in/eduardo-fernandez-ortiz/

Over 20 years of international experience delivering major transportation and civil infrastructure programs across North America and Europe. Civil engineering, business, and legal training applied to project delivery, commercial management, and business development.

CORE COMPETENCIES

Strategic Planning & Execution | Project & Program Management | P3, DB, CMAR, PDB and Alliance delivery models | Cross-Functional Team Leadership | Stakeholder Engagement & Communication | Cost Optimization & Value Engineering | Contract Negotiation & Management | Risk Assessment & Mitigation | Big Data Analytics & AI Applications | Cloud Computing Architectures (AWS & Azure) | Commercial Management | Civil Engineering | Mentorship & Team Development | Innovation & Continuous Improvement

PROFESSIONAL EXPERIENCE

Aecon | Project Director

Washington DC, USA | 09.2026 - Present

- Lead business development and pursuit planning for major U.S. civil infrastructure projects.
- Identify and assess opportunities in dams, hydropower, tunnels, transit, and airports.
- Build relationships with public and federal clients, engineering firms, and construction partners.
- Develop strategic partnerships and joint venture opportunities.
- Evaluate delivery methods, commercial risks, and project fit.
- Coordinate U.S. and Canadian teams on market engagement and proposal development.

Flatiron Dragados Corp. | Project Director

Washington DC, USA | 06.2024 - 06.2026

- Leading multidisciplinary project delivery efforts for nationally significant rail infrastructure programs under progressive delivery models.
- Responsible for aligning construction execution with design coordination, commercial strategy, and stakeholder interface across joint venture and owner organizations.
- Supporting delivery of the $1B+ Long Bridge North PDB Project and $2.7B Susquehanna River Rail Bridge CMAR Project, two critical Northeast Corridor infrastructure investments.
- Serving as a key interface with Amtrak, VPRA, VRE, FRA, and CSX, bridging technical, commercial, and stakeholder considerations.
- Collaborating across internal disciplines (design, procurement, controls, field) to support efficient and compliant execution.

Acciona Construction USA Corp. | Senior Project Manager

Atlanta, GA, USA | 06.2023 - 06.2024

- Supported strategic capture and preconstruction efforts for large-scale transportation infrastructure pursuits, with a focus on public-private partnerships (P3s) and progressive delivery models.
- Contributed to winning and advancing major proposals, including the $2.3B LADOTD I-10 Calcasieu River Bridge P3 and the $4.6B GDOT SR-400 Express Lanes P3.
- Strengthened proposal quality through technical input, commercial review, and stakeholder alignment strategies.
- Facilitated agency and stakeholder meetings to ensure transparency, responsiveness, and client trust.
- Collaborated across engineering, legal, and commercial teams to build compelling value propositions for owners.

SNC Lavalin Inc. | Project Manager

Toronto, ON, Canada | 02.2022 - 06.2023

- Led multidisciplinary teams across complex infrastructure pursuits, contributing to the successful capture and setup of major transportation programs in Canada.
- Played a key role in bids for projects including EHTH Alliance, Scarborough SE PDB, and led RFQ strategy for the Ontario Line - EGS PDB.
- Drove project success through effective team coordination, early works planning, and strategic partnerships.
- Implemented project management best practices to improve efficiency, scope alignment, and team performance.
- Built and maintained strong relationships with public owners, consultants, and community stakeholders, ensuring alignment across delivery partners.

Ferrovial Construction US & Canada | Technical Manager

Houston, TX, USA | 10.2017 - 02.2022

- Provided technical leadership and design integration support on one of Texas’s largest DB infrastructure projects, ensuring alignment between construction execution, design deliverables, and contractual compliance.
- Delivered RFC design packages for the $950M TxDOT Grand Parkway Segments H, I-1, and I-2 DB Project.
- Oversaw/designed and processed over 300 design change modifications, improving constructability, safety, and cost-effectiveness.
- Led the project Construction Technical Office, supporting the U.S. management team with design coordination and field implementation strategy.
- Acted as a key liaison with JV partners to ensure contract compliance and effective execution under the DB model.

Isolux Corsan USA | Senior Project Manager

Bloomington, IN, USA | 08.2014 - 10.2017

- Led integrated technical and commercial functions on a major P3 highway project in Indiana, contributing to the successful delivery of a critical corridor expansion for INDOT.
- Managed technical oversight and commercial strategy for the $400M I-69 Section 5 P3 Project, covering a 21-mile interstate segment.
- Coordinated design-build execution, project controls, and procurement to ensure alignment with contractual obligations and performance goals.
- Supported owner engagement and risk management processes across project phases.

Team Engineering and Consulting | Technical Director

Bilbao, Spain | 06.2010 - 08.2014

- Managed and led design and supervision teams for construction, tunneling, geotechnical, and structural engineering projects with a portfolio of €1B
- Oversaw the design of large-scale infrastructure projects featuring over 14 km of tunnels and 5 km of bridges on high-speed rail and highways
- Expanded the company's scope to include bridge projects, improving design rates by 20%
- Mentored, coached, and trained over 20 new engineers

Fonorte EC S.A. | Senior Project Manager

Bilbao, Spain | 11.2008 - 06.2010

- Directed construction projects including design improvement, budgeting, planning, subcontracting, procurement, quality control, safety compliance, and environmental management
- Managed the construction of the High-Speed Rail from Legutiano to Escoriatza project, a joint venture with a budget of €60M
- Oversaw the Gernika Sewer improvements project with a budget of €11M

Sacyr | Project Manager

Girona, Spain | 09.2005 - 11.2008

- Managed the construction of the High-Speed Rail Cornellà del Terri to Vilademuls project, with an €80M budget, involving tunnels and pre-stressed concrete bridges
- Oversaw design improvement, budgeting, planning, subcontracting, procurement, quality control, safety compliance, and environmental management

Prointec | Construction Supervision Manager

San Sebastian, Spain | 01.2003 - 09.2005

- Supervised the construction of the Urumea highway from Martutene to Astigarraga project, a 6 km highway project with a budget of €67M
- Managed supervision for the 8 km Toll Road AP1 from Eibar to Bergara with a budget of €79M

EDUCATION

Bachelor of Law - International University of La Rioja, Spain | 2025

Master's Degree in International Business Law - International University of La Rioja, Spain | 2022

Master's Degree in Engineering Math and Computation - International University of La Rioja | 2021

Master's Degree in Business Intelligence - International University of La Rioja, Spain | 2020

Executive MBA in Construction Sector - EOI Business School, Spain | 2006

Master of Science in Civil Engineering - University of Cantabria, Spain | 2002

POSTGRADUATE TRAINING

PG Program in Cloud Computing, AWS & Azure architectures - International University of La Rioja, Spain | 2022

PG Program in Big Data and Artificial Intelligence - International University of La Rioja, Spain | 2021

Master's degree Specialization in Steel and Composite Structures - Zigurat | 2012

LICENSES AND CERTIFICATIONS

Professional Engineer (P.E.) - TX, CA, FL, MN, ND, GA, LA (USA)

Professional Engineer (P.Eng.) - Ontario (Canada)

Project Management Professional (PMP®) - PMI

Commercial General Building Contractor (NASCLA) - NASCLA
